

Here's what's happening this month at

When products alone are not enough, our Thermage Procedure is the perfect solution. This non-laser radiofrequency procedure stimulates collagen and tightens the skin with little to no down time.

What the face procedure treats:

- Sagging skin, including under the chin ("turkey neck")
- Loose jowls or lack of definition in jaw line
- Wrinkles and fine lines around the mouth, eyes or forehead
- Enlarged pores

What the body procedure treats:

- Wrinkled, crepey or sagging skin on the tummy, knees, arms, legs, hands or buttocks
- Appearance of cellulite

Dare to be bare with our

LIGHT Sheer DUET™

This **NEW** High Speed laser hair removal technology is virtually painless. The Light Sheer Duet™ hair laser will free you from shaving, tweezing and waxing. You'll be left with lasting smooth, beautiful skin. **FREE consultation for the month of April.**

20% off ALL laser hair removal packages!

PCA skin **PCA Peels \$99**
(Reg. \$150)

Sensi Peel® strengthens and brightens skin while helping to treat sun damage and hyperpigmentation (skin discoloration) with minimal to no down time. This multi-faceted procedure provides anti-inflammatory, anti-acne and antibacterial action. It's an excellent choice for helping calm rosacea, as redness and inflammation can subside substantially after treatment.

Ultra Peel® is specially formulated for dehydrated, maturing skin. Ultra Peel® I is also appropriate for many skin types, conditions, and sensitivities such as pigment disorders, sun damage, acne and general dullness. Since it produces only a mild tingling sensation, it is ideal for sensitive skin. The overall result is plump, hydrated, ultra-soft skin.

The perfect way to get that great springtime glow!
