Introducing our New
coolsculpting™
by ZELTIQ

**We are the first in Tucson to have this
FDA approved device as seen on Dr. Oz.**

Coolsculpting™ utilizes revolutionary new cold technology to safely and effectively destroy unwanted fat cells in specific areas of the body. With this non-invasive procedure, there are no needles, no incisions, no need for anesthesia or pain medications, and no recovery time. Relax and read a book during treatment and afterward resume normal activities including work and exercise. Enjoy your complete results over the next 2-3 months after treatment.
