

Here's what's happening this month at

July 2011

Let Us Clear Things Up For You...

## It's NEVER Too Late to Start an Acne Treatment Program!

The experts at Skin Spectrum can help you have clearer skin - We offer the following treatment options:

### Spectra Laser

This laser helps treat stubborn acne and shrinks pore size. Your skin may be slightly pink for a few hours to a full day following.

**\$900 for four treatments (\$300 savings)**

### thermage Acne

In just one treatment, this radio frequency device can greatly reduce cystic acne with virtually no healing time.

**\$900 (\$300 savings)**

### VIPEEL

This medium depth chemical peel will soothe the skin, help clear acne and ease acne scars. Plan about five days of a light peeling of the skin with mild redness.

**\$200 (\$100 savings)**

### Microneedling

With this procedure, our skin specialists will help "roll away" old acne scars... So the skin will look softer and smoother. Patients can expect a few days of flaky skin after this treatment.

**\$500 for five treatments (\$300 savings)**

### COOLTOUCH Combo

With Vbeam, our laser technician will help cool down active acne lesions while removing the redness from old scars. The Cooltouch will also help calm acne and stimulate collagen to help fill in depressions in the skin caused by old acne. You may be slightly pink and/or slightly swollen for a few hours following this procedure.

**\$600 for three treatments (\$150 savings)**

### Acne Diamond Peel Microdermabrasion

(includes cyst injections) - This procedure will deeply cleanse skin, stimulate collagen, calm acne and help your topical medications penetrate better. There is generally no healing time following this treatment.

**\$85 (\$15 savings)**

Call now to book your appointment with our skin specialists and put your best face forward this Fall!
